OSDI Schools – Securing Positions on District Level

Out of 52 schools in Union Council Bhanoth, two OSDI supported schools have secured the 2nd and 3rd positions respectively. The announcement was made by the Education District Officer (EDO) in a little gathering having Headmasters and Teachers of these schools.

During the annual examination of 2014-15 the Government officials from the Education department visited these schools to conduct oral examinations. Students were asked various questions regarding their studies on this occasion. Prompt answers and enthusiastic classroom participation by all the students left the Government team in amazement.

OSDI adopted Government Primary School in village Jamal Hajano almost 2 years ago and Government Boys Primary School in village Mari Muhammad Khan nearly 1.5 years ago. Teachers were appointed to make these ghost schools functional. Books, Schools Bags, Uniforms, Shoes and Stationary items were distributed to motivate the students.

As a positive outcome of effective community mobilization and awareness campaigns the enrollment of students kept on increasing. Currently, 95 students are enrolled in GBPS – Mari Muhammad Khan and 135 students are acquiring quality education in GPS – Jamal Hajano in district Matiari.

Under OSDI's leadership students were well appreciated due to which they became regular and took interest in studies. The community of both these villages is thankful to OSDI for enlightening their children with quality education.
