

## Case-Study

### **Abdul Rauf – Ambassador of Education:**

Living in the deprived community of Jawan Khan Burirro in district Jacobabad (Sindh), lives 9 year old Abdul Rauf. He is a student of Grade 2. This little lad has made several efforts for the promotion of education in his village.

Besides, studying in OSDI's supported Sadoro Khan Government Primary School, Rauf has vocally spoken about the importance of education in life; to the elderly people of a nearby community where the literacy rate is 0%. The community has no school or educational facility available. To motivate the out-of-school young children specially the boys, Rauf has asked them to visit his school and attend his class. He has introduced his teacher – Mr. Sardar Khan to these children to advocate on the necessity of education.

Mr. Khan guided Abdul's friends regarding the significance of education process in improving their lives and motivated them to have themselves enrolled in this school. Rauf regularly conducts group study sessions with some of the students in the evening and he teaches them regarding discipline and encourages the newly enrolled students by making them aware of the routine activities of the school.

Mr. Khan considers him to be one of the most intelligent students in the school and feels sure that he will have a bright future.
